Together We're Connecting More Kansans to Care

UnitedHealthcare has joined forces with

5 KANSAS COMMUNITY GRANT PARTNERS

committed to helping build a healthier Kansas by:

CONNECTING SENIORS to essential health care and social resources to help them remain at home.

UTILIZING TELEHEALTH

to connect rural residents to care, improve outcomes and reduce costs.

EMPLOYING COMMUNITY HEALTH WORKERS

to engage rural residents in their health and wellness where they live.

"We want to close the gap between our front door and their front door. We want to provide access to care where access to care is not necessarily either affordable or achievable."

RICK HERNANDEZ | CEO of the Community Health Ministry in Wamego
